

Conference phones for every situation

The Konftel 200 – The Powerful Conferencing Solution

The Konftel 200 is a powerful and versatile conference phone. Perfect for larger conference rooms it can be easily upgraded with expansion microphones for greater range.

KONFTEL FEATURES

- Crystal clear sound provided by OmniSound® technology
- Full duplex
- 2 year warranty

KONFTEL 200 FEATURES

- A sophisticated unit, simple to connect and use
- Connects to analog line
- Large illuminated display
- Keypad
- User-friendly menu system with phonebook for 50 numbers
- Tape recorder output
- Expansion microphones and remote control options available

Now you can hold a meeting anytime – regardless of distance and pressing schedules. Konftel conference units are all equipped with the unique OmniSound® feature – optimal sound for natural, crystal clear communication. Konftel telephone conferencing brings people together and is the ideal alternative to travel.

Intelligent communications

The Konftel 200 has a sophisticated and user friendly menu system that can be viewed on the illuminated LED. The 300 sq ft (30 m²) range can be increased by the use of optional expansion microphones.

User-friendly functions

The Konftel 200 menu system appears in the clear, illuminated graphic display. It features a keypad including a mute key and a flash key for multi-party calls. The easy to use menu provides volume settings for the speakers, in addition to date, time and call time. You can even select a language!

OmniSound® – crystal clear sound

Walk and talk freely around your room with consistent high quality sound. There is no irritating sound clipping, damping or echoes. OmniSound® produces full-duplex natural sound as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omni-directional transmission and three built-in surround speakers provide crystal clear reception throughout the room.

Ideal for large conference rooms

Expansion microphones can be connected to the Konftel 200 providing increased range and optimal sound conditions in larger conference rooms. The remote control accessory allows for mobility during presentations and permits the user to control the Konftel 200 functions, such as speed dialing and volume levels.

Smart memory aid

An excellent way of saving time and increasing efficiency is to record your conference call. The Konftel 200 can be used to tape record your meeting with the addition of the tape recorder cable.
